PROFILE

Cross-Platform Software Developer with hands-on experience building modern frontend applications, backend services, cloud automation, and data-driven systems. Strong expertise in React.js, Next.js, JavaScript, HTML5, and CSS, with practical experience using Python and SQL for reporting and data pipelines. Actively transitioning into Data Engineering and AI systems, guided by the principle: always follow the flow of data

SKILLS

Frontend & UI

React.js,
Next.js JavaScript (ES6+)
HTML5,
CSS3 Responsive Design
UI/UX Fundamentals
Figma

Backend & Data

Node.js
Python
REST APIs
SQL (Analytics & Reporting)
MongoDB
Firebase DynamoDB

Cloud & Automation (AWS)

ECS, Docker, AWS Batch
Lambda, EC2, S3 Step
Functions, SWF
CloudWatch
Athena IAM, KMS
CodeCommit
Amazon Bedrock

Focus Areas Data

Engineering & Automation
Batch Processing
Reporting Systems
AI-Ready Pipelines

EDUCATION

SECONDARY SCHOOL

Really Great High School
2014 - 2019

ACTIVE MEDIA

IT internship
2021 - 2021

EXPERIENCE

CROSS PLATFORM DEVELOPER AND DEVOPS

Rapidtrade

2024 - Present

- Build responsive, production-ready web applications using React.js and Next.js.
- Design and execute containerized batch jobs using Docker and AWS ECS.
- Develop Python and SQL reporting systems generating daily, weekly, and monthly sales reports for Sakso and The Beverage Company.
- Automate batch scheduling to reduce operational and infrastructure costs.
- Create Python scripts for log extraction, date-range filtering, data uploads, and automated processing

SOFTWARE DEVELOPER

Active Media Industries

2021 - 2023

- Developed and maintained web applications using JavaScript, HTML, CSS, SQL, and Node.js.
- Built responsive landing pages and reusable UI components.
- Integrated relational and NoSQL databases and improved performance.
- Worked in agile, cross-functional teams.

CAREER DIRECTION

- Current: Full-Stack & Cross-Platform Development | Focus: Data Engineering & Automation | Next: AI & Machine Learning Systems Principle: Always Follow the Flow of Data
